## Product Bulletin

# Aminol

### Description

**Aminol** possesses excellent pH development and reserve alkalinity enabling the amine to be used as a tankside additive to raise pH. Due to the chemical structure of the amine, **Aminol** will not contribute to ammonia blush, which is common to many other amines.

### Recommended Applications

**Aminol**, when used for tankside pH adjustment, is typically used at a rate of 1 to 2 gallons per 1,000 gallons of fluid.

### Typical Properties

Property	Typical Value
Appearance	Colorless to Light Yellow Liquid
Odor	Faint Amine
Specific Gravity	0.90
Solubility in Water	Complete
